

# EMERGENCY AND EXIT LIGHTS

We can supply you with all your Emergency and Exit Lights and related equipment. Creative Fire Protection has a large range of fire equipment in stock and ready to install.

## INSTALLATION:

Our on road service vehicles also have supply of the most commonly needed light components ready to go. If required or otherwise we can arrange a speedy installation with just a phone call. Builders can simply contact our office and arrange installation of units in any new construction whether it's for a stadium, office block or small shop. All installations are done in compliance with appropriate codes and standards.

## TESTING and MAINTENANCE:

Maintenance and testing of your emergency light system ensures you have a functioning system when it is most needed. Creative Fire Protection can also complete your six monthly and annual exit light test requirements. All testing is in accordance with the AS1851. Fire equipment maintenance standards.

## WE CAN:

- Upgrade or modify any emergency light system
- Upgrade or move exit lights
- Upgrade or modify wiring to the lights
- Add or remove emergency or exit lights
- Retro-fit an existing building
- New installation during construction
- Locate and rectify faults and problems
- Conduct six monthly / annual testing
- Document and certify for regulatory requirements
